

PASSIVE BOOKSHELF SPEAKERS

Pair Kanto YU Passive 4" bookshelf speakers with an amplifier of your choice and enjoy your favorite tunes the way the artist intended. Featuring 4 inch Kevlar® woofers and 1 inch silk dome tweeters, these speakers produce a neutral, balanced tone. A bottom-mounted 1/4"-20 threaded hole attaches to compatible Kanto speaker stands for confidence-inspiring security and audio coupling. YU Passive works great on a desktop with a DAC/amp combo, or in a dedicated two-channel listening station. Enhance your TV's sound by connecting YU Passive to an integrated amp, or add them into a home theatre system as rear, side, or height channels. Available in both black and white, these passive speakers compliment any aesthetic.

POWER HANDLING

Paired with an amplifier capable of supplying 70 W per channel into 4 ohms, YU Passive 4" will fill your home with realistic, uncolored sound – exactly the way the artist intended.

RICH BASS

High-strength Kevlar® woofers and a tuned bass port produce tight bass with low distortion letting you feel every beat and be moved by the music.

SMOOTH TREBLE

Smooth sounding silk dome tweeters produce natural treble response allowing you to listen to YU passive all day with no fatigue.

SLEEK DESIGN

YU Passive's sleek, minimal design works well with many decors and its black and white vinyl finishes give you the option to match any aesthetic.

SOLID CONSTRUCTION

Solid MDF cabinets reduce unwanted vibrations, and bolted to a compatible Kanto speaker stand, resonances can be further eliminated through coupling.
